Question 1:*

Using a specific organizational case study as an example (i.e. a client story), explain how your work aligns with the MMF Model of Improved Economic Mobility. Be sure to explain the activities involved and how you know those activities are impacting the mobility rates of the target population.

Character Limit: 1500

Question 2*

View the MMF User's Guide (pages 27-30). If awarded, you will be expected to measure two of the indicators listed over the course of three years, with an annual report on milestones reached toward the achievement of these indicators. Explain your current efforts to track improved mobility and how they align with two or more of these indicators.

Character Limit: 1500

Question 3*

How will a grant award of \$50,000 per year for three years enhance your existing efforts toward improved economic mobility? What will this award enable you to do?
